

Want new countertops but don't want your kitchen torn apart for weeks?

Choose Duracite.

**You're only
three easy steps
away from
your beautiful
new kitchen!**

Our expert technicians will carefully measure over your existing counters. Then we can tear out your old counters when your new ones are ready to install. The demolition and installation process takes us only days where others take weeks.

1.

Our professional technician will create templates of the new countertops over your existing ones

2.

Relax while our state-of-the-art facility custom fabricates your new countertops

3.

Watch the transformation as your old counters are torn out just before the new ones are installed!
