

## Care & Use Guide

[www.artisanstonecollection.com](http://www.artisanstonecollection.com)

**Congratulations on your purchase of Artisan Stone Countertops. You have selected from the finest granites in the world, crafted by the best Artisans in the countertop industry. Our commitment to you includes a limited lifetime warranty of your countertops. To keep your investment looking good for years to come we suggest the following:**

### **DO CLEAN UP SPILLS IMMEDIATELY**

- Use an absorbent cloth followed by FIRSTLINE™ Clean & Restore.

### **DO USE TRIVETS AND CUTTING BOARDS**

- Protect your countertops from excessive heat and wear by placing hot items on a trivet, not directly on the granite.
- Protect your fine cutlery by using a cutting board, not cutting directly on the granite.

### **DO USE COASTERS AND PLACEMATS**

- Your Artisan granite is an investment in your home. Like fine furniture it is to be treated with care. Protecting the surface from food and drink spills will maintain the brand-new appearance indefinitely.

### **DO USE FIRSTLINE CLEAN & RESTORE**

- FIRSTLINE Clean & Restore is the best daily cleanup product available for granite.
- Using FIRSTLINE not only leaves your countertops beautifully clean, it also protects and enhances the original FIRSTLINE Seal and Protect application.

### **DON'T USE NON-RECOMMENDED CLEANERS**

- Don't use abrasive cleansers.
- Don't use acidic cleaners.

### **DON'T WORRY**

- With very simple daily cleaning, and the use of trivets, cutting boards and place mats your countertops will maintain their original beauty for many years to come.

Please contact your Artisan Group representative to purchase more FIRSTLINE products.
